THE STRENGTH OF A NATIONAL COMPANY WITH LOCAL CUSTOMER SERVICE.

Pavestone, LLC began in 1980 with one manufacturing facility in North Texas. From the beginning, we dedicated ourselves to delivering the greatest selection and the highest quality of segmental concrete systems available in the U.S. Our pave stones, retaining walls, edgers, patio stones, and erosion control systems transform landscapes into beautiful dreamscapes. Today, Pavestone brand products are manufactured in 23 state-of-the-art facilities delivering to more than 40 states. Thank you for choosing our products to add beauty and value to your landscape.

ECO-PRIORA™ / SPECIAL ORDER

ECO-PRIORA™

The patented interlocking joint and non-chamfered top edge profile of Pavestone's Eco-Priora™ insures optimum performance unequaled in the permeable paver industry. The unique Eco-Priora™ joint profile allows surface water to infiltrate into the pavement and its sublayers. Pavestone's Eco-Priora™, even with a clogging factor, will still meet the majority of current storm water management plans (SWMP), as well as, assist in meeting current EPA storm water regulations and LEED certification.

Available by Special Order Only.

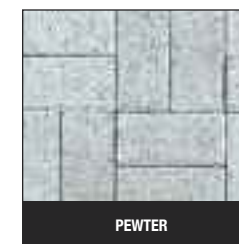

GRASSTONE™ I / RIVER RED

GRASSTONE™ I

Pavestone's Grasstone™ I, made with an open-void, interlocking lattice design, creates a flat surface for intermittent paving applications. The open void allows for on-site infiltration of storm water or revegetation. Designs can use topsoil or aggregates in the grid openings depending upon desired effect. The Grasstone™ I concrete grid stone reinforces grassy areas that are subject to intermittent wheeled light vehicular traffic.

VENETIAN STONE™ HERITAGE™ SERIES / TRAVERTINE

Not all products and colors are available in every plant.

VENETIAN STONE™

The Venetian Stone™ product advent is the latest development in enhanced pavements by Pavestone. Its uniquely attractive cleft surface sets it apart from ordinary pavers. This texture recalls old world charm and invokes a traditional convention. The larger scale of Venetian Stone™ pavers lends itself to stately residential settings and more expansive commercial applications. Its modular pattern equalizes the scale of any project and is fitting to most any architectural elements.

RETAINING WALL PANEL SYSTEM 6-INCH/8-INCH COMBO

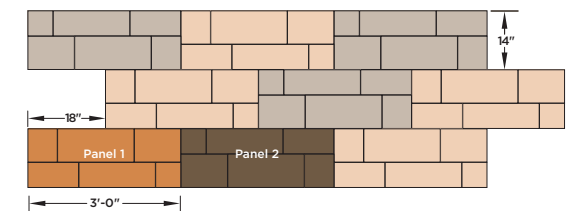

The Anchor™ Sequent™ Retaining Wall Panel System combines two popular Anchor™ products with great aesthetic and functional results. The panels are a quick way to build a multiheight wall by combining the Diamond Pro Stone Cut® and Highland Stone® Retaining Wall Systems in a simple installation pattern. The Sequent™ Retaining Wall Panel System installation pattern is quick to install on any scale when you want to create a random, rough-hewn look without sacrificing productivity.

	Large	12" W x 18" L x 6" H	20	80				

Estimating Information

- Determine the square footage of exposed wall.
 - Each panel covers 3.5 sq. ft. Divide the square footage of exposed wall by 3.5 to determine the number of panels.
 - Each pallet of Diamond Pro Stone Cut® Combo can complete 16 panels. Divide the number of panels by 16 (rounding up) to determine the number of Diamond Pro Stone Cut® Combo pallets required.
 - Each pallet of Highland Stone® 6 inch Combo can complete 20 panels. Divide the number of panels by 20 (rounding up) to determine the number of Highland Stone® 6 inch Combo pallets required.
- Determine the linear footage of base course, and divide by the appropriate factor below to calculate the amount of material required.
 - Highland Stone® 6 inch Combo = 60 linear feet per pallet.
 - 18 inch only blocks: 1.5 linear feet per block.
- Add the exposed wall and base course requirements. Don't forget the caps!

ANCHOR™ SEQUENT™ HIGHLAND STONE® 3-INCH/6-INCH COMBO MULTIHEIGHT WALL

Not all products and colors are available in every plant.

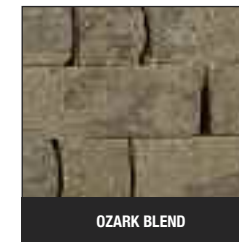

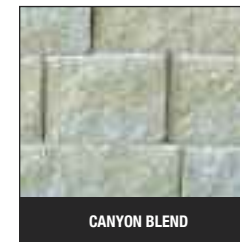

ANCHOR™ SEQUENT™ HIGHLAND STONE®

3-INCH/6-INCH COMBO MULTIHEIGHT WALL

The Anchor™ Highland Stone®, with its rough-hewn exterior and patented rear-lip system, is now available in both 3-inch and 6-inch heights. Use these stones alone or mixed together to create natural stone beauty without sacrificing stability. The Highland Stone® 3-inch/6-inch combination multiheight retaining wall system combines earthen tones, rich textures, and varied contours to make it a reliable alternative to natural stone walls.

RUMBLESTONE™ COLLECTION

Reminiscent of our fondest childhood toys, Pavestone's innovative RumbleStone™ provides a set of rustic building blocks for your outdoor hardscape projects. Whether your project is simple or complex, large or small, RumbleStone's possibilities for creative expression are as limitless as your inner child's imagination. The six tumbled RumbleStone™ sizes can be assembled in an endless variety of configurations and orientations. In addition to simple running bond patterns, the stones can be easily stacked with insets, moved forward and backward, horizontally and vertically, for more aesthetically pleasing visual relief and texture. What will you create?

ACCESSORIES

GeoGrid

The underlining principles of viable walls. Dependable GeoGrid, available in a wide variety of strengths, and the finer-patterned GeoFace are Geostar's grid lines. These grid lines are composed of pvc-coated, high-tenacity polyester that is easy to handle and install. Connection tested with all major SRW products, this is the stuff viability is made of and technical data is readily available that proves it.

GeoFilter

Advancing nonwoven technology, naturally supportive of your goals and naturally resistant to opposing forces.

GeoStar offers two lines of needle-punched nonwoven geotextiles:

GeoFilter GN for drainage, filtration, erosion control, separation, and underlayment.

GeoFilter GP for paving fabric and asphalt overlay.

Both lines are made from 100% polypropylene staple fibers formed into a random network for dimensional stability. Both resist ultraviolet deterioration, rotting, biological degradation, and naturally encountered basics and acids. Both are stable within a pH range of 2 to 13.

All Geostar products are strategically positioned by purpose, price, proximity, and performance. We have what you need, you can afford it, we can get it to you, and you'll get more than you need from it. All Proven.

GeoGrid

GeoFilter

Choosing interlocking paving stones for your home is an investment that needs to be protected. Surebond Joint Stabilizing Sealer does just that by bonding joint sand and sealing the pavement surface. Bonding joint sand maintains the structural integrity of the system – stones won't move, sand won't wash out, and weed and ant problems are reduced. All while sealing the surface to protect it from oil, salt and food staining, as well as, maintaining the natural color of the stone.

Features & Benefits of SB-1300 and SB-7000: Water-Based Sealers and Joint Sand Stabilizers.

- Immediate Application - The ONLY sealers that can be applied IMMEDIATELY after paver installation.
- Coverage - An average of 100 sq ft / gallon and last 3 to 5 years Indoors and Outdoors, on Old and New pavements, Concrete, Clay, and Natural Stone Paving.
- UV Resistant - Will not yellow.
- Breathable - Will not trap naturally occurring efflorescence.
- Resists freeze - Thaw damage and will improve surface durability.
- Solvent Free - Meets or exceeds all VOC and EPA standards.

Maintains joint sand height, reducing weed growth. Maintains horizontal friction by bonding the sand between units.

Features & Benefits of SB-5000 STAINBLOCKING SEALER: Provide the Ultimate in Stain Protection.

- Protective - Resists a wide variety of penetrants including water and oil.
- VOC compliant - 50 g/l and safe to use.
- Environmentally friendly - Water-based product will not harm plants or surrounding landscape.
- Invisible - Does not change the appearance of the substrate.
- UV resistant and stable - Does not yellow in sunlight and protects substrate from fading.

THE BEST THERE IS TO CLEAN AND PROTECT YOUR CONCRETE PAVERS AND SLABS

Treatment for Pavers & Slabs Benefits:

- Choice of wet look, natural look, or invisible protection
- Protects against stains and makes cleaning easier
- Removes oil, rust, tar, efflorescence, etc.
- Easy to use and very durable

Polymeric Jointing Sands Benefits:

- Stabilizes pavers - Follows movement
- Resists erosion - Water, frost heaving, wind, power washing, etc.
- Applied dry - Hardens after being misted
- Deters ants and other insects
- Inhibits weed growth

Polymeric Sand

RG+ Tan/Gray

Contact Your Local Representative for availability on the full line of QUIKRETE® products such as bagged concrete mixes, concrete repair products, and masonry products.

HOLLAND STONE / CHARCOAL, CAST STONE, AND RIVER RED

COLOR VARIATIONS

As in all natural materials, color in paving stones and wall stones has inherent variations. Paver and wall color is affected by the variances in the raw materials, concrete mixture, moisture content, climactic conditions, and other variations. Therefore, the colors shown are approximate representations of Pavestone's paver and wall colors, but should not be expected to be an exact match of what will be delivered.

THE NATURE OF EFFLORESCENCE

Another cause of color variation in paving stones and wall stones may be the natural phenomenon called efflorescence. Efflorescence, a deposit of white salts consisting of mostly calcium carbonate, may appear as a white powder on the paver or wall surface and in no way affects the structural integrity. This phenomenon occurs in all concrete and although it cannot be completely prevented from occurring, efflorescence generally will weather off and disappear over time or can be removed with cleaners at the job site.

PAVESTONE.COM

PAVESTONE, LLC

LIMITED LIFETIME GUARANTEE OF QUALITY

Pavestone, LLC hereby provides to the original purchaser a lifetime guarantee that its concrete paving stones purchased by the purchaser and installed for residential use will be free from defects in workmanship or materials given normal use and care. Concrete paving stones installed according to ICPI standards, and properly cared for that prove defective will be replaced without cost, except that Pavestone, LLC will not be responsible for labor, transportation costs or equipment costs. Warranty covers product only. Pavestone, LLC does not guaranty color matching nor does it assume responsibility for damage or defects arising from improper installation, abuse or the alteration or application of any other materials to its concrete paving stones. To obtain performance under this guarantee, the purchaser should contact Pavestone, LLC at 3490 Piedmont Ave., #1300, Atlanta, Georgia, 30305, telephone number 1.404.634.9100. This guarantee gives the purchaser specific legal rights, and the purchaser may also have other rights that vary from state to state.
